DNR Field Observations

May 21, 2013

Planned construction work was postponed due to weather conditions. Department of Natural Resources staff on-site noted winds out of the south for most of the day and it has now shifted to be from the southwest. Odors were reported as minimal in the morning and were moderate in the afternoon near St. Charles Rock Road and Taussig, as would be expected with winds from the southwest.

May 20, 2013

Planned construction work was postponed due to weather conditions. Department of Natural Resources staff on-site noted winds were generally from the south with odors at a moderate level north of the landfill.
