

Correction:

The data point for TMP-31 on 12/5/16 at 40 ft was recorded as 229 degrees F. 299 degrees F was inadvertently recorded into the database. A revised version of HE_TMP-Summary has been added to the Weekly Report submittals for the weeks of 12/16/16, 12/23/16, 12/30/16, and 1/6/17.
