The Missouri Department of Natural Resources hereby issues a permit to:

Construction Permit ID: MOGSE0207
Title of Project: The Village of Provence
Owner: Fischer and Frichtel Custom Homes LLC
Address: 695 Trade Center Blvd., Suite 200 Chesterfield, MO 63005

The project will also include general site work appropriate to the scope and purpose of the project and will include all the necessary appurtenances to make a complete and usable collection system. The construction of this project will be in the vicinity of the county below and discharge to Receiving Permit ID below:

County: St. Charles Receiving Permit ID: MO0058351

for the construction of (described construction project):

The Villages of Provence - Construction of approximately 1,565 lf of 8-inch PVC SDR-35 gravity sewer lines with approximately 28 ft of concrete encasement, 18 ft of casing pipe, and 15 manholes to serve 32 lots with a design PE of 118 and a design average flow of 11,840 gpd.

Project is in the vicinity of N. Duchesne Dr. and W. Randolph St. in St. Charles, St. Charles County and discharges to an existing system to be treated at either the St. Charles Missouri WWTF, MO0058351 or Mississippi WWTF, MO0058343. Kierstyn Lorince, PE, Project Manager with the City of St. Charles provided an acceptance letter dated May 11, 2021.

Construction of such proposed facilities shall be in accordance with the provisions of the Missouri Clean Water Law, Chapter 644, RSMo, and regulation promulgated thereunder, or this permit may be revoked by the Department of Natural Resources (Department). As the Department does not examine structural features of design or the efficiency of mechanical equipment, the issuance of this permit does not include approval of these features.

This permit applies only to the construction of water pollution control components; it does not apply to other environmentally regulated areas.

Edward B. Galbraith, Director
Division of Environmental Quality

Chris Wieberg, Director
Water Protection Program
APPLICABILITY

1. This permit authorizes the construction of gravity sewer extensions, force mains, and lift stations. Non-earthen flow equalization storage basins at lift stations and inline storage, which flows back into the lift station or collection system, are also included.

2. A site specific sewer extension construction permit may be required by the Department due to compliance and enforcement actions.

3. Projects located within an Approved Sewer Program as noted in the operating permit of the receiving wastewater treatment facility are not required to obtain a construction permit from the Department of Natural Resources (Department).

4. This permit does not apply to:
   A. Earthen storage basins;
   B. Exempt projects unless requested by the applicant or required by enforcement.

PREREQUISITES:

1. The General Sewer Extension Construction Permit application, appropriate fee, and documentation in accordance with 10 CSR 20-6.010(5)(G).

2. The plans and specifications each signed and sealed by a professional engineer registered in the State of Missouri in accordance with 10 CSR 20-8 and 10 CSR 20-6.010.

3. The Design Certification form or Engineering Report or Summary of Design signed and sealed by a professional engineer registered in the State of Missouri certifying the design of the system was prepared in accordance with 10 CSR 20-6 and 10 CSR 20-8.

4. A statement from the continuing authority, as defined in 10 CSR 20-6.010, accepting the wastewater for treatment and indicating the permitted treatment facility has the available capacity.

5. A statement from the continuing authority, as defined in 10 CSR 20-6.010, accepting the responsibility for operation and maintenance of these facilities.

PERMIT CONDITIONS:

1. This permit authorizes the activities and scope of work detailed in the plans and specifications submitted with the request.

2. The construction must be in accordance with the final plans and specifications approved by the Department.

3. State and Federal Law does not permit bypassing of raw wastewater; therefore steps must be taken to ensure that raw wastewater does not discharge during construction. If a sanitary sewer overflow or bypass occurs, report the appropriate information to the Department’s regional office per 10 CSR 20-7.015(9)(E)2., or through the Online Bypass/SSO Reporting system found at https://dnr.mo.gov/eservices.htm under Water Protection.
PERMIT CONDITIONS: (continued)

4. Protection of drinking water supplies must meet the requirements of 10 CSR 23-3.010.
   A. There shall be no physical connections between a public or private potable water supply system and a sewer, or appurtenance thereto, which would permit the passage of any wastewater or polluted water into the potable supply.
   B. Sewers shall be laid at least fifty feet (50’) in a horizontal direction from any existing or proposed public water supply well or other water supply sources or structures.

5. Manholes shall be located with the top access at or above grade level.

6. In addition to the requirements for a construction permit, see 10 CSR 20-6.200 for land disturbance requirements to obtain a Missouri State Operating Permit to discharge stormwater. The permit requires Best Management Practices sufficient to control runoff and sedimentation to protect waters of the state. Land disturbance permits will only be obtained by means of the Department’s ePermitting system available online at www.dnr.mo.gov/env/wpp/epermit/help.htm.

7. A United States (U.S.) Army Corps of Engineers (COE) permit (404) and a Water Quality Certification (401) issued by the Department or permit waiver may be required for the activities described in this permit. This permit is not valid until these requirements are satisfied. If construction activity will disturb any land below the ordinary high water mark of Jurisdictional Waters of the U.S. then a 404/401 will be required. Since the COE makes determinations on what is jurisdictional, you must contact the COE to determine permitting requirements. You may call the Department’s Water Protection Program at 573-751-1300 for more information.

   See www.dnr.mo.gov/env/wpp/401/ for more information.

8. If this project eliminates a wastewater treatment facility under the jurisdiction of the Department, then a full closure plan shall be submitted with a Facility Closure Request Form, Form – MO 780-2512 to the Department’s appropriate regional office for review and approval. In accordance with 10 CSR 20-6.010(12), the closure plan must meet the requirements outlined in Standard Conditions Part III, of the Missouri State Operating Permit. Closure shall not commence until the submitted closure plan is approved by the Department.

9. If this project is part of a project to resolve an enforcement action or is receiving funding from the Department, submit a statement of work complete following the completion of construction
### 1.0 APPLICATION INFORMATION

1.1 Is this a Federal/State funded project? ☐ YES ☑ N/A

1.2 Has the Department of Natural Resources approved the proposed project’s engineering report? ☐ YES Date of Approval: ☐ NO ☑ N/A

1.3 Is a copy of the appropriate plans* and specifications* included with this application? ☑ YES ☐ NO

1.4 Is a summary of design* included with this application? ☑ YES ☐ NO

1.5 Is the appropriate fee or JetPay confirmation included with this application? ☑ YES ☐ NO

* Must be affixed with a Missouri registered professional engineer’s seal, signature and date.

### 2.0 PROJECT INFORMATION

#### 2.1 NAME OF PROJECT
The Village of Provence

<table>
<thead>
<tr>
<th>ADDRESS</th>
<th>CITY</th>
<th>STATE</th>
<th>ZIP CODE</th>
<th>COUNTY</th>
</tr>
</thead>
<tbody>
<tr>
<td>2200 West Randolph Street</td>
<td>St. Charles</td>
<td>MO</td>
<td>63301</td>
<td>St. Charles</td>
</tr>
</tbody>
</table>

#### 2.2 Legal Description:

| ¼ | ¼ | ¼ | Sec. | T 47N | R 5E |

#### 2.3 Project Components (check all that apply):
- ☑ Gravity sewers
- ☐ Pumping stations
- ☐ Force mains
- ☐ Alternative sewer system
- ☐ Other (Describe below.)

#### 2.4 PROJECT DESCRIPTION

15 Manholes with 1,565 linear feet of 8" sanitary main

### 2.5 DESIGN INFORMATION

A. Population or number of lots to be served by this extension: 32

B. Estimated flow to be contributed by this extension: Design Average Flow: 11840 gpd Design Peak Hourly Flow: 1,973 gph

C. Industrial Wastes: Type: Flow: gpd

D. Receiving Sewer: Size: 8 inches Capacity: 705 gpm

### 3.0 PROJECT OWNER

### 6.1 Has the receiving treatment facility agreed to accept the additional wastewater flow?
- [ ] YES
- [ ] NO

### 6.2 A letter from the receiving wastewater treatment facility, if different than the continuing authority, is included with this application.
- [ ] YES
- [ ] NO
- [ ] N/A

## 7.0 Application Fee

- [ ] Check Number
- [ ] JetPay Confirmation Number

## 8.0 PROJECT OWNER:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
